EDUCATION

Niepubliczne Technikum Programistyczne Techni Schools w Lublinie

B.Eng. Computer Science
2023 – 2028

SKILLS

LANGUAGES

Python · JavaScript · TypeScript · Java · HTML/CSS · .NET / C#

FRAMEWORKS & TOOLS

React · Node.js · Git · GitHub · REST APIs · SQL

CURRENTLY LEARNING

.NET Backend · ASP.NET Core

Items in dashed style are currently being learned.

LANGUAGES

Polish	Native
English	Advanced (B2+/C1)
Spanish	Beginner (A1/A2)

CORE STRENGTHS

- Problem solving and debugging under time pressure
- Clear communication in technical teams
- Fast self-learning and ownership of tasks

ABOUT

Computer Science student focused on building practical projects and improving backend fundamentals. Currently expanding into .NET development and software architecture. Looking for an internship where I can contribute quickly and keep growing in a strong engineering team.

EXPERIENCE

Junior Developer (Student Project Team)

OCT 2025 - PRESENT

University Collaboration Project

- Built and maintained API endpoints for team features in a semester project.
- Improved Git workflow by introducing branch naming and pull request templates.
- Presented technical decisions during sprint reviews to non-technical stakeholders.

PROJECTS

Spendly

github.com/SpendlyTeam/Spendly

Next.js · *Tailwind.css*

Finance dashboard for tracking spending and trends with responsive UI, charts, and PDF export.

millionaire-cpp

github.com/piekret/millionaire-cpp

C++ · *CMake*

C++17 terminal quiz game with CSV-driven question sets, CLI options, and modular gameplay logic.

BookManager

github.com/piekret/BookManager

Kotlin · *Jetpack Compose*

Book collection app with full CRUD flow, structured data handling, and a clean Compose-based interface.

More projects available at github.com/piekret
